Re: Application Serial No. 09/833,099
Our Ref. No. 935-012

Dear Examiner Bost:

Thank you for the courtesy of your telephone call the other day regarding the pending Petition to Revive the above-referenced application. As requested, transmitted herewith is a copy of the statement previously submitted in support of the Petition, which, though a search and review of the jacket and records for this case, states that "our records indicate that the Notice to File Missing Parts ... was never received by our office." The attached copy of the file jacket for this application further demonstrates that the Notice to File Missing Parts dated May 1, 2001 was not received by our office. Please feel free to contact me if further information is necessary for your further consideration, and hopefully grant, of the applicant's Petition to Revive.

Very truly yours,

David M. Hill

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

**DECLARATION ATTESTING TO MAILING OF PATENT
OFFICE CORRESPONDENCE UNDER 37 C.F.R. § 1.8(a) AND
NON-RECEIPT OF FURTHER PATENT OFFICE COMMUNICATION**

I, David M. Hill, declare that our records indicate that on April 11, 2001, the subject application was filed with the Patent Office. Until receipt of the Notice of Abandonment dated October 27, 2003, no further Patent Office communication had been received by our office regarding the subject patent application. Specifically, our records indicate that the Notice to File Missing Parts (Notice) allegedly mailed on May 1, 2001 regarding the subject application was never received by our office. A copy of our firm's regular Patent Office communication recording sheet for this application is attached as Exhibit 1. As shown, no entry exists for any Patent Office communication dated May 1, 2001, thereby indicating that no such document was ever received by our office. In an attempt to learn the status of this application, applicant filed a Status Request on August 6, 2002. A copy of this Status

Request is attached as Exhibit 2. Again, no response was ever received.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

Date: November 12, 2003

David M. Hill
